

Tailwind + PostCSS Setup for Dark Mode

◆ Installed & Configured

- Created **tailwind.config.js**
- Created **postcss.config.js**
- Installed required latest Tailwind packages

Commands Used

```
npm install -D tailwindcss autoprefixer postcss
npm install -D @tailwindcss/postcss
```

postcss.config.js

```
export default {
  plugins: {
    '@tailwindcss/postcss': {},
  },
}
```

tailwind.config.js

```
export default {
  darkMode: 'class',
  content: [
    './index.html',
    './src/**/*.{js,jsx,ts,tsx}',
  ],
  theme: {
    extend: {},
  },
  plugins: [],
};
```
